# CLASSIC RUMS HOW TO ENJOY THEM

# THE CLASSIC RUMS

by Bristol Spirits Limited

We have taken a lot of trouble to search out our special bottlings of rare rums from the Caribbean. They have spent many long years in oak casks, in old dark cellars. So naturally, we would like you to appreciate their special qualities. We think they bear comparison with the finest cognacs and malts whiskies.

We would ask you, first to taste them alone, in a brandy snifter; after that, for pure pleasure, on the rocks in a heavy highball glass.

And because we realize that the finest spirits make the finest mixes, we offer two cocktail suggestions; we think they will give great pleasure, while still allowing the rich subtlety of our rums to show through.

Good Health!
